An update to our local community

Let Us Reintroduce Ourselves: Who is Habitat for Humanity?

After COVID-19 had rocked the world back in 2020, the way in which we all operate has changed. Habitat for Humanity of Cass County was hit with obstacles and was close to shutting down completely. A group of recent board members and volunteers remembered the mission, though. This local community is in great need of affordable housing. We have individuals/families that are struggling daily to meet their rent, live in less-than-ideal conditions, or may have the means but cannot *find* housing.

More than half of all adults have made at least one tradeoff in the past three years to cover their rent or mortgage. Tradeoffs include taking a second job, cutting back on health care and healthy food, and moving to less safe neighborhoods.

The need is astronomic in our current economy. Your local Habitat for Humanity's main goal is to build strength, stability and self-reliance through shelter. We'll do this by *partnering* with families. Habitat homeowners receive financial education, they help build their own house, and get to pay an affordable mortgage. Everyone deserves to live in a decent, affordable home. Habitat works to eliminate barriers to a better, healthier, more financially stable life. With our help, homeowners achieve strength, stability, and independence they need to build a better future for themselves and for their families. We are excited to dig in and invest in Cass County, our local community. We hope you are too.

PS. Thank you for visiting us at a local community event! Please contact us if you want to opt-out of future mailings.
